www.imanationscapital.org

It is our pleasure to announce Mr. Chris Chaconas, a recognized leader in the finance and accounting profession, will be sharing with us his thoughts on business ethics. Chris has been asked to join us after rave reviews for his prior presentations on our chapter.

Chris comes to us with over 25 years of experience in multiple leadership roles both in the Continental United States and in Europe. He has served in management roles with highly-regarded firms like Electronic Data Systems, Alcatel, and Sprint Nextel.

Over this period, Chris has served in financial management, controllership, and related functions in both a commercial and federal contracting organizations. He brings a wealth of background to a discussion of business ethics. In the post-Enron and Sarbanes-Oxley era, there is no business entity that can afford to be insensitive to the ethical conflicts employees and managers face on a daily and periodic basis.

For those who are IMA leaders, this presentation will meet the IMA's annual requirement that organization leaders obtain two or more hours of professional education in the field of ethics.

The meeting times are different than our traditional dinner/speaker arrangement. Hopefully, all will be able to arrive by 5:00 pm to hear the full presentation. Following dinner, we will have a brief chapter board meeting; everyone is welcome to attend.
